-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 February 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings were received on 10/22/2001. These drawings are accepted.

Specification

2. In view of the amendment filed 02/28/2005, the Examiner withdraws all objections to the abstract.

Response to Arguments

Applicant's arguments filed 02/28/2005 have been fully considered but they are not persuasive.

The Applicant contends, “, Kuroda outlines a storage system which utilizes disk pre-pits in order to arrange data. This pre-pit information is stored on the disk by the media manufacturer prior to delivery or use in a data storage system”.

Col. 5, lines 48-49 in Kuroda teach that one recording sector includes 26 sync frames (Note: a recording sector is a data storage area for user data during use of the recording media and a sync frame is a recording unit for accessing data from the recording media created at the time data is to be recorded to the frame). Col. 5, lines 59-61 in Kuroda teach that pre-information is recorded in a portion of a length of 14T in the head part of the sync frame from a position of 2T from the start position of each

Art Unit: 2133

sync frame, hence the pre-information is placed at precise position within a sync frame and is done so for all 26 sync frames in a recording sector so that the pre-information is interleaved between data on storage area recording sector.

The Examiner asserts that "pre-pit information" is not "pre-information" as taught in Kuroda.

The Applicant contends, "The Kuroda et al. storage system is limited to the physical structure located on the surface of the media".

Col. 6, lines 30-40 in Kuroda teach that pre-information depends only on the sync frame structure not the pre-pits.

The Examiner disagrees with the applicant and maintains all rejections of claims 1-31. All amendments and arguments by the applicant have been considered. It is the Examiner's conclusion that claims 1-31 are not patentably distinct or non-obvious over the prior art of record in view of the references, Kuroda; Kazuo et al. (US 5875163 A, hereafter referred to as Kuroda) in view of Verboom; Johannes J. et al. (US 5574706 A, hereafter referred to as Nagara) as applied in the last office action, filed 08/24/2004. Therefore, the rejection is maintained.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2133

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3, 10, 13, 14, 16, 17, 19, 20, 22, 23, 26 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Kuroda; Kazuo et al. (US 5875163 A, hereafter referred to as Kuroda).

See the Non-Final Action filed 08/24/2004 for detailed action of prior rejections.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
2. Claims 2, 9, 11, 12, 15 and 27-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kuroda; Kazuo et al. (US 5875163 A, hereafter referred to as Kuroda).

See the Non-Final Action filed 08/24/2004 for detailed action of prior rejections.

3. Claims 4-8, 18, 21, 24 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kuroda; Kazuo et al. (US 5875163 A, hereafter referred to as Kuroda) in view of Verboom; Johannes J. et al. (US 5574706 A, hereafter referred to as Nagara).

See the Non-Final Action filed 08/24/2004 for detailed action of prior rejections.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

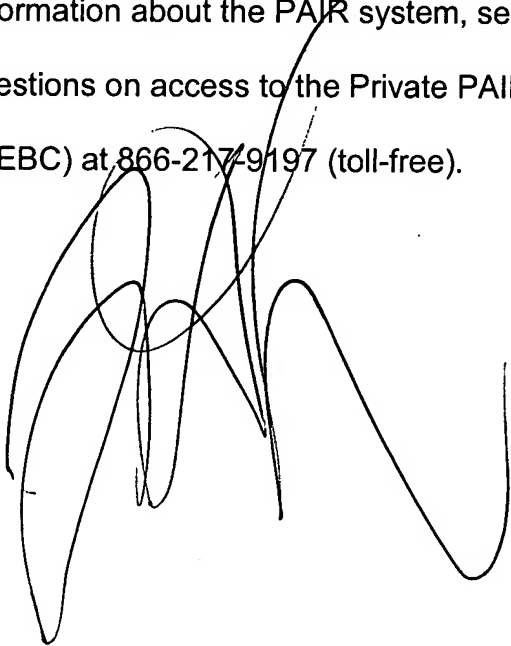

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
